Forecast for Sunday 07 May 2023

Weather: Cloudy start as residual low cloud, rain and drizzle clear eastward. Sunny intervals across the Peaks by mid-morning which may allow for slow-moving showers to develop. The odd shower may turn locally heavy or thundery in the early afternoon. Showers fading to leave a fine evening. Cloud will thicken from the west later with rain arriving overnight.

Chance of cloud-free hill tops above 600m: 20% initially improving to above 90% by the afternoon.

Low cloud and visibility: Widely cloudy, with banks of low cloud bases 200-400m. Cloud clearing to the east, with any valley fog lifting and clearing by mid-morning. Cloud bases may lower to shroud summits in the east of the Park in and around any heavy downpours. Generally poor or very poor visibility will become good, but temporarily poor in any afternoon showers.

Meteorologist's View

Low cloud may make for challenging navigation in the morning. Moderate UV levels expected in any sunny spells.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
14:00 on Sat 06 May 2023	3mm	5mm	5mm

Forecast for Monday 08 May 2023

Weather: Overcast morning with outbreaks of rain spreading in from the west. Rain may turn heavy at times, particularly across western slopes. Rain may turn increasingly showery during the afternoon before clearing away to the east and easing through the evening. Further pulses of rain and drizzle are likely in thick cloud late on. Blustery winds.

Maximum wind: Southwesterly 20-25 mph with gusts to 30-35mph, easing later.

Chance of cloud-free hill tops above 600m: 20%, but 40% in the east initially. Rising from the west to 60% from mid-afternoon.

Low cloud and visibility: Extensive low cloud spreading eastward in association with arriving rain. Cloud bases around 300-500f, lifting clear of summits later as rain clears. Poor or very poor visibility in rain or drizzle, and in any heavier showers. Visibility good otherwise.

Temperature: **Valleys:** Plus 10 Celsius rising to Plus 15 Celsius.
At 600m: Plus 7 Celsius rising to Plus 12 Celsius.
Freezing level: Above the summits.
